

## **DOWSIL™ 1199 Clear Silicone for Wall Cladding Below 72”**

---

**Date:** Aug 20, 2020

**Supersedes Date:** Apr 30, 1997; Aug 2, 2006

**Bulletin Number:** #08

ICD has evaluated DOWSIL™ 1199 Silicone Glazing Sealant Clear. The silicone is compatible with and adheres well to OPACI-COAT-300®.\*

This material is approved for wall cladding applications below 72” in height. All other instructions remain the same.

\* This material was tested for single component compatibility with OPACI-COAT-300® only. This testing does not determine compatibility in combination with other materials even where those other materials may also be tested and approved for use. Project specific submittals of all glazing materials and consultation with all component manufacturers regarding the suitability of use in combination with all other materials is required.

Lists of additional materials currently approved for use with OPACI-COAT-300® may be located on ICD’s website: [www.icdcoatings.com](http://www.icdcoatings.com)

Please call ICD Technical Services, at (360) 546-2286, regarding any questions about the information provided in this bulletin.
